

Questions of Character and Integrity

These questions are intended to help you identify areas in which you still need healing and to help us know how to best support you in the process. It is not meant to disqualify you from serving as a leader. We just want to know that you are reasonably free from moral/lifestyle issues that would make it difficult for you to lead effectively. We frequently see potential leaders who are honest about an area of sin or temptation when answering these questions that get help and go on to lead a group with great effectiveness. Let the Holy Spirit do His work in you as you honestly search your heart.

Once you've filled out the Questions of Character and Integrity form, please share it with your Discipleship Community Pastor. He'll connect with you soon to walk through it together.
